### Pablo Costa, Third-Year Student | From: Spain

*“The education you receive at STU is exceptional. In fact, 99% of our professors have the highest degree in their fields of study. They are also incredibly helpful—you can really feel that they want to see all their students succeed. Something else I really like about the approach to education here is that you are encouraged to choose from a vast range of courses in your first year to help you discover what you are truly passionate about before moving into your upper years.”*
